SUMMERY

Front-end developer with more than 1.5 years of experience in building websites. Seeking new opportunities and challenges that will expand my skill set.

PROJECTS

E-commerce Website — HTML, CSS & JAVASCRIPT

https://mhasan1037.github.io/E-commerce-2/

I have built JS components for different reusable parts like header and footer. Some data of the website is fetched from a JSON file and some of it is static. I have made a functional product ordering system on this website.

React Dashboard

https://mhasan1037.github.io/react-dashboard/

It's a multi-paged react dashboard. Different data is presented with different graphs. It has a calendar where users can add events. It also has a chat page.

REACT E-commerce

https://mhasan1037.github.io/e-commerce/

I have made a react e-commerce website with an API. After fetching data, I made different categories and each category has its own product. I have made a product page and cart page as well
