SUMMERY

Entry-level front-end developer with more than 1.5 years of experience in building web pages. Seeking for new opportunities and challenges that will expand my skill set.

PROJECTS

Ecommerce Website — HTML, CSS & JAVASCRIPT

https://mhasan1037.github.io/E-commerce-2/

I cloned a themeforest website to make my project. I have built JS templates of different reusable parts of the website like header and footer. Some data of the website is fetched from a JSON file and some of it is static.

Construction Website — HTML, CSS & JAVASCRIPT

https://mhasan1037.github.io/Construction-Website/

It's a multi page business website. It has a background slider, different CSS animations, data filter with JS, carousel slider etc.

JAVASCRIPT & REACT PROJECTS

I have made lots of JS & React projects like expense tracker, grad calculator, note app, tic tac toe, todo app and many more.
